Professional Summary :Multidisciplinary specialist with proven expertise in leading technical development teams, executing social media marketing campaigns, and diagnosing and repairing smart devices. Seeking a role that leverages technical leadership and digital marketing skills to drive growth for startups and innovative projects.

Working Experience

Project Leader Car2-Hire Car Rental Platform
Graduation Project
September 2023 – June 2024

- Led a team of 7 members in the development of Car2-Hire, a digital platform facilitating peer-to-peer car rentals.
- Designed and implemented a user-friendly interface enabling customers to browse available vehicles, compare prices, and book rentals seamlessly.
- Developed a robust backend system for vehicle owners to list their cars, manage availability, and track bookings.
- Conducted market research to identify user needs and preferences, ensuring the platform met customer expectations.
- Collaborated with academic advisors to align the project with industry standards and academic requirements

Working as Social Media Marketing Specialist,
from 2022 - 2023

Freelance – Laser King & Arcade Store 2022 – 2023
Laser King *(r 2022 – 2023)*

- Led a 4-month social media marketing campaign for **Laser King**, a creative brand specializing in small laser-cut crafts using CNC machines and customized prints on acrylic and glass surfaces.
- Developed and scheduled digital content showcasing personalized products, gift ideas, and laser engraving processes.
- Ran targeted ad campaigns on Facebook aimed at gift buyers, home decor enthusiasts, and small business resellers.

Boosted brand awareness and significantly increased product inquiries and orders during seasonal periods (holidays, special occasions

Arcade Store ***(January 2022 – March 2023)***

- Designed and implemented a 2-month performance-focused campaign for **Arcade Store**, targeting PC gamers and tech enthusiasts.
- Promoted computer components and ready-made PC builds through high-impact visual content and engaging product breakdowns.
- Reached a high sales conversion, successfully selling 85% of the featured stock.
- Used data-driven targeting strategies to optimize ad reach and return on ad spend (ROAS).

Worked at Phone & Computer Maintenance in repair shop
